Instructions

Assignment 2: Registration System   Total Marks: 70

1) In the test class named "Registration", there are 48 tests to be performed.
2) Create a new project name 'Registration'
3) Create other classes as you discover in Registration classes, with subsequent methods according to the tester class (Registration).
   a) Student class
   b) Instructor class
   c) Course class
   d) CourseWithLab class
   e) CompletedCourse class
4) In order to check your assignment completion runs the "Registration" class after each test.
5) Assignment should be zipped THROUGH NETBEANS ONLY, ask If you don't know how.
   i) Unacceptable zip formats (.rar, .tar, .gz or zipped directly through filesystem)
6) Submit the complete zipped project.
7) **Single attempt assignment,**
   a) **Review assignment properly before submitting, once assignment has been submitted no exception would be given to re-submit**.
8) Every step would earn some marks.
9) 5 marks will be given for good coding practice for example:
   i) Comments are required in Javadoc style
   ii) Add your first name, last name and student number at the top of each class
   iii) Using descriptive names of variables.

10) Deadline Aug 1st, 2020.

****YOU CANNOT MAKE ANY CHANGE TO THE RegistrationSystem TEST CLASS, ANY CHANGE MADE WILL RESULT 0 GRADE FOR THE ASSIGNMENT*****
